PROFESSIONAL SUMMARY

Final-year Computer Science engineering student with a strong foundation in Linux environments, Python scripting, Git version control, and cloud computing fundamentals. Experienced in backend development, containerization (Docker), and automated workflows. Eager to bring a rigorous operational mindset, automation skills, and a passion for cloud infrastructure modernization to DevOps team.

SKILLS

❖ Technical Skills

- **Programming Languages:** C++, Python, JavaScript, Typescript, Bash
- **Frontend Technologies:** React.js, Next.js, Tailwind CSS, Framer Motion, Vite
- **Backend & AI Integration:** Node.js, Express.js, FastAPI, RESTful APIs, RAG Pipelines, LLM
- **DevOps & Tools:** Git (Branching & Merging strategies), CI/CD concepts, Jenkins, Maven/Gradle (exposure), Docker
- **Core CS Subjects:** Computer Networks, Operating Systems, DBMS
- **Cloud & Databases:** AWS (Cloud Computing fundamentals), Docker, Microservices Architecture, Linux / Windows Administration

❖ Soft Skills

- Effective communication, problem-solving, teamwork, adaptability

EDUCATION

- ❖ **B. Tech Cse | IKGPTU Mohali Campus -1** Pursuing (7.55) | 2027
- ❖ **Diploma In Computer Engineering | Govt Polytechnic Hamirpur** 75% | 2024

ACADEMIC PROJECTS

- ❖ **EduNexus | Api Based Roadmap Generating Platform-** An API based platform where user can generate dynamic roadmaps by entering their information, can get various roadmaps according to their field of interest and a community in which user can interact with others
- ❖ **Venture-Bridge | Platform for Entrepreneurs and Investors to Interact-** A unique platform for Entrepreneurs to represent /pitch their idea and investors can see through their ideas and can interact with each other and can post about new ideas and inventions to attract investors
- ❖ **RepoMind | AI-Powered Repository Analyzer-** Developed an intelligent developer tool that extracts and analyzes GitHub repository data to generate instant codebase insights. Integrated an OpenAI LLM and RAG pipeline to automate documentation generation and support rapid open-source repository onboarding
- ❖ **Design Forge | LLD Platform-**
Built a creative utility platform with a drag-and-drop interface for rapid prototyping of highly customizable frontend components. Engineered a parameter-based generation workflow that exports accessible, production-ready React and Tailwind CSS code

ACHIEVEMENTS / HOBBIES

- ❖ Participated in hackathon HACK-O-OCTO | Hack-2 Hatch
- ❖ Attended 1-week Hands-On Workshop on VLSI Design | JUIT Wakhnaghat Solan

EXPERIENCE / INDUSTRIAL TRAINING

- ❖ Done Six Weeks Industrial Training in Web Development | Ex-Trainer Mohali
- ❖ Done Six Weeks Industrial Training in App Development | Prerna-Gati Technologies
